

SABS™

Saebi Alternative Building System

Features & Benefits

Energy Efficient

Moisture Control

Temperature Control (i.e. 30% savings on heating and cooling)

Sound Insulation

Durability & Strength

SABS™ is exceedingly resilient to mold or mildew

SABS™ Panels will not dent or deform

SABS™ has a 2,000 psi retention strength

SABS™ will embrace up to 260 MPH winds

Molecular compound bond creates surplus strength

Sustainability

The EPS Foam insulation is 94% air

100% eco-friendly

EPS Foam is non- toxic

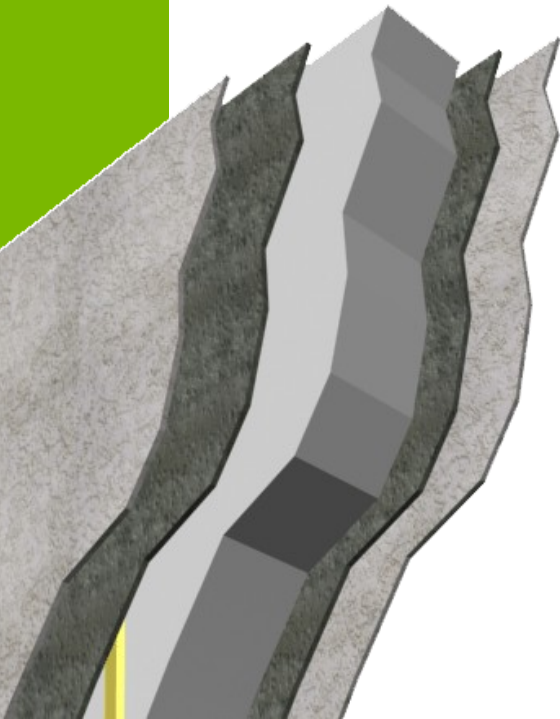

The SABS™ coating main ingredients are Cement and Sand

Construction

Few formation trades to manage

The system's effortless makes assembly fast

The EPS Foam is lightweight making assembly easy
